

AccuAngle Indicator

Helps to accurately predetermine angles for acetabular cup positioning and insertion—very helpful in minimally invasive surgery

Designed to allow the surgeon to consistently and quickly achieve the desired component position during each step of acetabular preparation and component positioning: acetabular reaming, trial component positioning, and actual component insertion.

Calibrated from 0 to 45°, the indicator may be used on the reamer shaft, the trial cup shaft and the cup impactor shaft.

Designed by
S. David Stulberg, MD, A. Llinas, MD and J. Navas, MD

Product No: 1325 *Dimensions:* 4" x 2"

Now includes two magnets along the bottom for hands-free use

Bottom Profile with Magnets

WARNING:
